

Welcome to Masa's Grill at The Harvest Golf Club!

We have put in place safety protocols and policies to protect our guests and our team. We are committed to engaging industry best practice, conform with government regulations, provide continuous training and support, and deliver clear communication to all visitors. The foodservice industry is redefining “*The New Normal*” for restaurant operations and table service.

We would like to share with you what that entails:

- Proof of vaccination along with a government piece of ID is required (in effect until April 8 as per Health Authorities).
- Masks are no longer mandatory indoors but are recommended and at the discretion of guests and their comfort level.
- For the guests protection and safety, all teammates will be washing hands constantly & sanitizing. Wearing masks will be at their discretion and comfort level.
- Reservations are highly recommended.
- Hand sanitizer is available at the entry door and throughout the establishment for all visitors.
- Table service and food & beverage service will be adapted to ensure safety.
- Sanitation of tables and chairs are done between every seating.
- Menus are sanitized between uses.
- The Harvest Golf Club reserves the right to refuse service to any guest if they display symptoms of illness in order to protect the public.
- All teammates are to self health monitor at all times (any teammates who exhibit symptoms will be sent home immediately).
- Teammates are instructed to wash their uniform after every shift.
- Cleaning and sanitation schedules are in place during hours of operation. The building is professionally cleaned daily.

We are delighted to greet you and wish you a safe & enjoyable visit.
