## Practice Facility Watch

We have now had the Synlawn synthetic material at The Harvest practice facility since 2017 and haven't experienced the following until this season. Since the beginning of the golf season in March, we have had 8 hitting mats vandalized with a knife or similar cutting device. These occurrences appear to be later in the day or at a time when the practice facility may be less busy. We respectfully ask for your cooperation in informing the Golf Shop without delay should you ever notice anyone damaging or abusing the Synlawn synthetic turf.

The Synlawn material factory is located in Atlanta, Georgia and is serviced locally by Synlawn Okanagan. Each mat costs

\$750.00 to replace and may take up to 6 weeks to receive replacement mat. After already replacing 4 mats thus far, 4 more mats have been severely damaged in recent days. This will now take weeks to replace, diminishing the environment and your enjoyment in the process.

Thank you very much in advance for your cooperation on this most unusual and unfortunate ongoing situation. If you ever wish to discuss, please do not hesitate to contact me at any time of your convenience or stop by my office located in the Golf Shop.

Enjoy your Weekend!

Respectfully,

Gilles Dufort

General Manager / Executive Professional

The Harvest Golf Club
